Profile

A Passionate web developer creating front-end applications that tap into the power of APIs and databases. Through experience gained and collaboration with other developers on projects, I have gained the necessary skills to be an effective contributor to any future employer. I am able to organize and prioritize work to complete assignments in a timely and efficient manner, while working well independently and on a team to solve problems.

Experience

Front-End Developer, SharpRank, LLC.

OCTOBER 2020 – PRESENT

- Develop, implement, and maintain Vue/.net MVC code for website features including User Picks, Sharp Cards, Search Bar features, making sure they are not only interactive, but connected properly to the database on the back-end.
- Identify and correct bugs on the website.
- Take initiative to collaborate with CTO on tasks, future features, and quality-of-life improvements for the website.
- Participate in weekly company meetings updating team members on current statuses of features and help brainstorm new features to meet current business needs.

Full Stack Developer, CNSplit

SEPTEMBER 2020 – PRESENT

- Work in Scrum environment while participating in stand-up meetings to update team on current progress and current blockers to completing tasks.
- Utilize Jira to keep track of tasks and time on tasks.
- Structure and develop main components and front-end data structures of projects using React and React-Redux.
- Use Asynchronous Javascript to properly connect data from the front-end to the back-end.
- Assist other team members with questions and help guide them with their coding tasks.

Education

Masters in Ed: Learning and Technology, Western Governors University

Teaching Credential: Foundational Mathematics, Vanguard University

Bachelors: Marketing, California State University, Fullerton
